

A1Brains Infotech, Company Profile

Satisfaction on Net

Introduction:

A1Brains InfoTech is an India based Export Oriented Unit, certified by Central Government of India, and approved by Custom Department of India, for complete Web and Software Development. Mr. Jugal Kishore Chhawchharia having three-year degree of Master in Technology in IT founded it, in 2006.

Earlier he was running another IT company, providing the same services, since 2000, named Satisnet Technologies.

Businesses as well as users have become more dynamic and reactive in their thinking. They expect to see up to date information immediately and in very proper manner.

A1Brains is a company providing professional-level & high quality solutions for a wide range of businesses and individuals, customized solution , web development and web application design, full- featured online stores, **software development**, Client server technology. We provide **web application development** in php development, **php web designing**, PHP shopping cart. We also provide php programmer to develop your web based application in designing and development.

Our Objective:

Main objective of our Company is to provide excellent IT services for organizations that rely on Successful projects. Our company has the ability to design, develop and maintain any complex IT Applications, cutting across technologies.

Our Commitment:

We take pride in our on time delivery and ability to meet quick turn around requests while exceeding customer quality demands. Customer Satisfaction continues to be of utmost importance to us.

Infrastructure:

Fully IT equipped modern center established at Ahmedabad, India.

We are using Linux based technologies, on the world's greatest server manufacturing brand. The reason of using Linux technology is that the ratio of Bug in Linux is very less than any other server.

We are using the world's leading brand desktop PC, to provide uninterrupted service to our clients.

A secure intranet for developers with the best firewall, VSS, domain name server, Proxy server, and Exchange Server and DSL internet technology is used.

We provide a secure extranet for real time interaction with clients throughout the project cycle, for secure customer support. This is to provide the full data security satisfaction to our clients. In addition, this communication channel enables us to provide day-to-day project monitoring and project management including on-line-bug-tracking tool.

Products & Services:

A1brains strives to be your Internet Business Partner in developing an effective solution for all your web site needs. We have complete range of services, and provide solution alternatives, that increase our respected clients' profits and decreases costs.

We have developed a variety of products that promises to increase the efficiency of your business. We provide various Business Solutions like Software Development, Application Development, Web Development and other corporate solutions to businesses worldwide.

Web design development is our specialization, so when we build your site it has to not only meet your needs, but our own high quality standards also. You can visit our website portfolio web design development, web design, web application development and other web design services.

Some of our products & services are as below:

- Web Designing
- Web Development
- Multimedia Solution
- E-commerce Solutions
- Software Development
- Yahoo Store Designing
- Internet Marketing
- Offshore Development

Web Designing:

We provide web design and development services to design websites that promote your business. Our web designs are fresh, welcoming and polished with clean, easy to follow navigation. Web Pages developed to ensure quick download times delivering good performance for all connection speeds. We have mastered in:

- 1) Logo Designing
- 2) Template Designing
- 3) Banner Designing
- 4) Dynamic Integrated Design
- 5) Custom Web Design
- 6) Static Website Design
- 7) Banner Design
- 8) Graphic Design

For these services, we have a team of Designers, having expertise in Photoshop, Illustrator, CorelDraw, Flash, and other required design tools.

Web Development :

Your web site speaks to your customers, your employees, and your competitors. We understand the challenges you face. We make you achieve this by implementing a memorable site. Our designers and programmers consistently & timely provide superior design and solutions, in every perspective. Today, most of the clients are frustrated with their existing website, due to the regular bugs, coming up in their website. We provide the fully bug free solutions to our clients, using the Latest programming languages, compatible in all the circumstances. We mainly work in:

- 1) PHP Programmers
- 2) ASP Programmers
- 3) .Net Programmers
- 4) Cold Fusion Programmers
- 5) XML Programmers
- 6) E-commerce
- 7) RTML (Yahoo Store) Programmers

Multimedia Solution:

This is a way to express your ideas and to interact with the potential customers. Our experienced multimedia developers and programmers create web sites using latest multimedia software and techniques. Animation has given a new outlook to sites on the web and hence it has gained the vital position and requirement in increasing site traffic. We are not only associated with Flash as an animating tool but also work on designing and animation on software like 3D max and Director. Now, Flash animation embedded with the latest voice over technology has found a new and crucial role in Websites promotion and CD presentation.

E-commerce Solution:

Our E-commerce Developers build websites that turn your visitors into customers.

Our Developers keep these points while designing the E-Commerce Sites:

- Attractive and memorable Web Page Layout
- User friendly and custom navigation
- Dynamic Text content
- Placement of links and animation wherever necessary

We provide quality, strategy and development for all four of these E-Commerce Development Solutions components and this assured that we will make the ideal partner in your E-commerce solution.

Software Development:

Our dedicated software development team has a unique combination of technical expertise, functional knowledge base, result oriented management and extensive experience. We believe in developing long lasting business solution rather than just developing an application, which satisfies your needs for short period. We have lots of project already working as well as some ongoing projects are also there like Project Planning and Control, Inventory Control system, Quality control system, payroll management system etc.

Software Development Skill Set:

Internet Programming Languages	: PHP, ASP .Net, VB.Net, ColdFusion, Java Script, VBScript, ActiveScript (Flash),
Programming Languages	: C++, Visual C++, C#, VB.Net, Java,
Database	: MS Access, MySQL, Oracle, MsSql
Web Servers	: MS Internet Information Server (MS IIS), Apache,WebSphere, Tomcat, Apache
Operating Systems	: MS DOS, MS Windows 95/98/ME, Windows NT/2000, Windows XP, Linux.

Yahoo Store Designing:

Yahoo Store design is being selected for e-Businesses. The reason why yahoo store templates are so popular, it is only due to large pool of customers and easy to use **yahoo store design features**. Its superior visibility, more visitors, safe transactions, easy administration of your products and flexibility for products placed in Yahoo stores designing. Today **Yahoo Store** is best practical way to open your **online store** for selling.

Internet Marketing:

The process of **Internet marketing** itself is vital in today's business society. If you have not established a high visibility on the major search engines, like Google, Yahoo and AltaVista then you probably are not receiving the online business you need to be successful. Getting that visibility, however, is no longer as easy as creating a website and submitting it to the various search engines.

A1brains has been helping clients increase their Internet visibility through proven search engine marketing campaigns.

- Search Engine Optimization
- Search Engine Marketing
- E-mail Marketing
- Outsource Branding and Promotion

Offshore Development:

A1brains Infotech is an **IT company, which** is providing **offshore software and application development services**. We are specifically focused in the fields of **Web Design and Development, PHP Programming, .Net, E-commerce Solutions, Web Application Development, Database Integration, Flash Development, Search Engine Optimization and Software Development Services**. Our multi-lingual project managers communicate your specifications to our **offshore development center programmers**. We monitor the project from start to finish, ensuring that our programmers completely understand the task details and meet all deadlines. Let us develop and manage projects for you while you focus on your core business. When you hire a dedicated development team from us for your project, you are adding an experienced staff to your team who will enhance and achieve your vision, through its extensive work exposure.
